

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. BIENNIAL REPORT

OF

DEPARTMENT OF STATE.

STATE OF INDIANA,
OFFICE OF THE SECRETARY OF STATE.

HON. THOS. R. MARSHALL, *Governor*:

Sir—Complying with Indiana laws, I find pleasure in submitting herewith a report concerning the affairs of the Department of State for the two years ending September 30, 1910

In the matter of fee collections the office has sustained its reputation of recent years as a revenue producer, in that a normal amount has been realized for the use and benefit of the State. Twice in its history the financial returns of the office have exceeded the two years covered by this report, but in those periods there were abnormally large receipts, due to extraordinary fees from railroads and the then development in interurban construction and extension. From October 1, 1908, to September 30, 1910, the receipts have been as follows:

Domestic corporations	\$177,980 50
Foreign corporations	17,553 23
Miscellaneous	22,063 85
Motor vehicle registrations	18,180 50
Sales of Supreme and Appellate Court Reports	16,894 00
Total	\$252,672 08

For purposes of ready comparison of the income through the Secretary of State's office for a number of years past I append the following table of receipts:

Two years ending October 31, 1892	\$46,000 00
Two years ending October 31, 1894	76,487 20
Two years ending October 31, 1896	61,125 55
Two years ending October 31, 1898	54,326 30
Two years ending October 31, 1900	137,154 85
Two years ending October 31, 1902	187,176 31
Two years ending October 31, 1904	226,131 62
Two years ending October 31, 1906	283,026 50
Twenty-three months ending September 30, 1908	356,502 87
Two years ending September 30, 1910	252,672 08

In connection with the above financial statement, there is also appended a table showing all appropriations for the term, the expenditures and the sums returned to the treasury, as follows:

	<i>Total Appropriations.</i>	<i>Expended.</i>	<i>Returned to Treasury.</i>
1909	\$14,640	\$14,624 85	\$15 15
1910	14,640	14,581 19	58 81
Total	\$29,280	\$29,206 04	\$73 90

In addition to figures given, I beg to also include and acknowledge receipt of \$262.20 from the Governor's contingent fund for the purpose of meeting a deficiency in the motor vehicle fund, the business of that department having so far exceeded expectations as to exhaust the regular appropriation long before the close of the fiscal year.

Comparing collections and expenditures for the term, including in the expenditures the contingent fund allowance, the result is:

Total collections	\$252,672 08
Expense	29,468 24
Surplus	\$233,203 84

For the conduct of the office during the fiscal years ending September 30, 1912, and September 30, 1913, which will be considered by the Sixty-seventh General Assembly, I make the following recommendations:

Salary of Secretary of State	\$6,500
Salary of Deputy Secretary of State	2,400
Salary of Clerk	1,500
Salary of Recording Clerk	1,000
Salary of Stenographer and Clerk	720
Salary of Stenographer	720
Expense of office	500
Expense of distribution of court reports	250
Expense of foreign corporation department and special recording	600
Expense of distribution of public documents	250
Expense of motor vehicle registrations	500
Total	\$14,840

The only increase recommended relates to the motor vehicle department, the business of which has exceeded all expectations and made absolutely necessary the additional allowance requested. Circumstances which no one could foresee requires that I also recommend a specific appropriation of \$300, to be immediately available, for the motor vehicle department, the \$200 allotted for the fiscal year ending September 30, 1911, being wholly inadequate, in the light of experience, to carry the department through without again imposing upon the Governor's contingent fund.

I find it possible to herein review at this time the business of the Secretary of State's office for the entire period of my incumbency, beginning

April 1, 1906, and ending December 30, 1910, and find great pleasure and satisfaction in appending hereto a tabulation of all receipts, credited to their respective departments, as well as the total payments to the State Treasurer in settlement of same:
